

Drone Operations in The NAS and Aircraft Aerodynamics

The seminar will expand on the use of drones for private, commercial, and government use. We will cover the regulations that govern drone operations within the United States and how they affect the airspace and environment. Public complaints will be addressed as well, regarding video and still camera pictures. Intermediate Aircraft Aerodynamics for airplane and rotorcraft will be discussed and questions will be addressed.

Directions: N/A

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
